## Most Valuable Goalkeeper Award

The late H.N. Delmonico donated this trophy, to be awarded annually on the following basis:

"I wish it understood that the present system of goalie percentages in the Inter-City League statistics should not be taken into consideration in the awarding of this trophy." "It should be awarded, solely on the outstanding goalkeeping ability displayed during the season. This may, in some instances, be the goalkeeper of the leading team, but, in many cases it may be the goalkeeper of the team in last spot, who has had to be remarkable all season, due to a week defence in front of him."
